

# Springville GI Transportation

In order to improve our routing efficiency, we find that it is very important to determine who is utilizing our transportation services. Though most students qualify for district transportation, we realize that not everyone takes advantage of that opportunity. It is our hope that everyone would use district transportation services regularly; however, that is not the reality. To help better understand who is using district transportation and when, we ask that you complete and return the attached form to your child's school office by August 16<sup>th</sup>.
